Have YOU ever been to a chiropractor before? ___Y ___N Results_____

You deserve to be healthy and have a good Quality of Life. Life is a miracle and so are you. When you were created you were given all the blueprints, intelligence, tools, and systems to live an active healthy life. Unfortunately, your health can be interfered with through accidents and challenges that cause distortion to your health expression, called the atlas subluxation complex. Through your examination and through your involvement in Upper-Cervical Chiropractic care, we will work to remove these interferences to your natural health expression so that you can live the Quality of Life you deserve.

Additional Symptoms:_____

Pregnant __Y __N

Explain any surgeries within past year: _____

_____

List Medications taken for what Symptoms:_____

_____

If you could get rid of one symptom today, maybe the symptom that brought you into our office or another symptom; to eliminate that symptom out of your life forever, the one symptom that AFFECTS your lifestyle the most, WHAT WOULD IT BE?

_____

How long have you had this symptom? __Days __Weeks __Months __Years

When this symptom is at its absolute worst, how does it make you feel?

_____

_____

If you could get rid of this symptom, what would your commitment be from 1 through 10. (10 being the highest commitment, 1 being the lowest commitment) Circle 1 2 3 4 5 6 7 8 9 10

As a result of my Upper-Cervical Chiropractic care in this office, I would like to achieve: (Please check all that apply)

__ Symptom Relief __More Energy __Become More Active __Healthier Spine

__Healthier Body __Healthier Lifestyle __Better Quality of Life

What type of care do you want?

___Relief Care that is necessary to reduce or eliminate your symptoms or pain, but not the cause of it. It is the same as drying a floor that was getting wet from a leak, but not fixing the leak. This care is not recommended because the health problem is never handled, progressively getting worse over time.

___Corrective Care to correct the problem by addressing the cause of why your body may not be healing, adapting or repairing that which is controlled by your nerve system. Corrective care varies in length of time, but is more lasting and improves the overall health of a person. Corrective and stabilization care goals are to enhance your Quality of Life. This care is recommended by Yardley Chiropractic.

___ Not Sure what type of care I want.

I understand and agree that all services rendered to me are charged directly to me and that I am personally responsible for payment and should I desire credit to be extended, I authorize any necessary credit verification. I also understand that if I suspend or terminate my care fees for professional services rendered will be immediately due and payable. I have been advised and concur, past due accounts will bear interest at 1% per month on the past due balance. I am responsible for costs required to enforce collection of my account including, but not limited to, collection fees, attorney fees and court costs. There is a $35.00 charge for returned checks.
